Q38 Thank you for taking part in this evaluation. This study evaluates "InterDev", a graph based platform for the discovery, exploration and sharing of data and metadata in international development. In this evaluation you will be asked to complete a series of tasks using the platform and then answer associated questions. Please read each task carefully and only click continue when the task is fully complete. **Please do not take any breaks until the study is complete as timing is recorded for some tasks.** Click the arrow at the bottom of the screen when a task is complete. If you cannot complete a task, continue to the next screen. **NB** In advance of this evaluation, please navigate to https://interdev2.adaptcentre.ie/ for the first task. This link will be on each task page in case you accidentally close the tab. By taking part in this study you are providing implied consent to take part in this study. Please review our consent document here for further information on how we process and use this information.
